Urdu B: A

Physics: A*

Chemistry: A*

Biology: A*

Commerce: A*

Statistics: A

Pakistan Studies: A*

Islamiyat: A

A Level Grades:

Mathematics: A*

Physics: A*

Computer Science: A*

Psychology: A*

Activities:

- Three years of experience in Graphic Designing, primarily in Adobe Illustrator and secondarily in Adobe Photoshop. (Expert)
- Three years of experience in video editing and effect addition in Adobe Premiere Pro and Adobe After Effects. (Intermediate)
- Proficient in the mainstream tools Microsoft Office. (Expert)
- Served as the Director of the IT Department at The Lahore Alma Model United Nations, one of Lahore's biggest MUNs, for two consecutive years, which is considered to be the most work-intensive department in any generic MUN (involves handling social media, graphic designing and logistical work in MS Office).
- Served as the Assistant Director of the Design & Merchandise department in LUMUN XVIII.
- Part of the management of The Lahore Alma Chess Championship 2019 and 2020, where I single handedly marketed it through Facebook with illustrative, appealing and informative graphical posts.
- Promoted The Lahore Alma Table Tennis Tournament by designing its only Poster.

- Worked as a graphic designer for Tameer, a Social Welfare NGO, promoting their Facebook page.
- Worked as a graphic designer for Psycare, the Social Media handle of a local psychologist, promoting their Facebook page.
- Completed the online MIT opencourse on Python programming language (6.0001 and 6.0002).
- Interned at Akhuwat Microfinance Organization in 2018 where, as a final project, I designed an engaging and educational Presentation on Animal Rights.
- Interned at Plan9 Incubator's Whiz Kids Programme, where, as a final project, I designed an exemplifying Pitch Desk Presentation on starting Pakistan's first local X-Ray Tube Manufacturing Industry.
- Served as a Graphic Designer for Team Teardrop which secured 1st place in the COVID-19 Hackathon 2020 by Open Data Pakistan.
- Served as the Editor of the English Magazine of my institution for four consecutive years.

I aspire to dive into the field of Computer Science with an attempt to find a spot between Software Engineering and Graphic Designing, two of my biggest interests and skillsets.
